

A CMS CONTRACTED INTERMEDIARY & CARRIER

**MEDICARE**

ELECTRONIC DATA INTERCHANGE

February 14, 2005

**Attention 4010 and 4010A1 Florida Medicare Part B Submitters**

Effective April 4, 2005 pre-pass edit changes will be made that may affect the way your electronic Medicare B claims are handled.

New and updated edits will be put in place, which will reject claims if the Identification Code Qualifier (NM108) is either 24 or 34 and the Identification Code (NM109) is **not nine bytes numeric** only.

The following loops contain an Identification Code Qualifier (NM108) element that can equal 24 or 34:

<u>Edit</u>	<u>Loop</u>	<u>Loop Description</u>
0089	2010AA	Billing Provider Identification Code
0120	2010AB	Pay To Provider Identification Code
1484	2310A	Referring Provider Identification Code
0522	2310B	Rendering Provider Identification Code
1485	2310C	Purchased Service Identification Code
<b>1486</b>	<b>2310D</b>	<b>Service Facility Identification Code</b>
1487	2310E	Supervising Provider Identification Code
0936	2420A	Rendering Provider Identification Code
1488	2420B	Purchased Service Identification Code
1489	2420C	Service Facility Identification Code
1490	2420D	Supervising Provider Identification Code
1491	2420E	Ordering Provider Identification Code
1492	2420F	Referring Provider Identification Code

Edit 1037 will be changed to set to reject the claim if more than 25 Line Adjudication Information (SVD/2430) segments are given per detail. Currently it sets if there is more than 1 Line Adjudication Information (SVD) segment and/or more than 25 Line Adjudication Information loops (2430).

Edit 1049 will be changed to set to reject the claim if more than one Line Adjudication Date (DTP/2430) segment is given per Line Adjudication Information loop (2430). Currently it sets if there is more than 1 Line Adjudication Date (DTP/2430) segment per detail.

Two new edits will also be put in place for 4010A1 claims only when Early Periodic Screening Diagnosis and Treatment (EPSDT) claims are submitted.

Edit 1493 will set to reject the claim if the EPSDT Referral Code Category (CRC01) of the Claim Information loop (2300) **is not ZZ or is not present** and the Special Program Code (CLM12) of the same loop (2300) **contains** a 01.

Edit 1494 will set to reject the claim if the EPSDT Referral Code Category (CRC01) of the Claim Information loop (2300) **is ZZ** and the Special Program Code (CLM12) of the same loop (2300) **does not** contain a 01.

Please contact (904) 354-5977 option 4 if additional information or clarification is needed.
