

Patch for Medisoft 12 Basic

This corrects the error: Access violation at address 009064b9 in module mw.exe read of address 00000000. This error occurs when applying payments in Medisoft Version 12 Original Patient Accounting

Click on the link below to access the patch for Medisoft 12 Basic. This only works on the Version 12 Basic edition which must already be installed. This will not work on the advanced versions of Medisoft.

After downloading to your desktop, double-click to install, and follow the installation instructions.
